Art. 4. The address of the LIBERTY LOAN COMMITTEE
OF NEW ENGLAND to the citizens of New England was read
by the Town Clerk.

Voted, That the address be received and recorded.

ADDRESS

Citizens of New England, Assembled in Town Meeting, for or-
dering and preservation of your affairs in common, you have just
cause for gratitude that you are enjoying

The Wisest Form of Self-Government ever devised by men.

No one should be allowed to take from you this precious priv-
ilege.

Viewing a nation great in territory, but weak in the co-ordin-
ated forces of democracy, being made prey of a conscienceless mili-
tary autocracy; and small nations either obliterated or forced stub-
bornly to hold to a fringe of their rightful territory, their nation-
al and racial lives all but sniffed out by that same merciless au-
tocracy, we should be seriously happy that we still possess our
country and our rights.

If we honor our forefathers for having founded this free coun-
try, it will be ignoble in us not to suffer equal sacrifices in main-
taining it.

These priceless possessions of a free people are in great danger.

A war loving and highly developed fighting combination is not only threatening to dominate Europe, but, drunk with beastiality which has followed military successes, threatens our free and peaceful development as well. It means to destroy our form of free government which has been the hope of liberty loving people of all nations.

We are at war with the Central Powers of Europe to prevent small nations from being dispossessed of their lands, their property, and their self governing powers. But we are at war for a much more weighty reason than that, great as that is. We are at war to preserve our national existence, to keep self government alive, to protect our families, our homes, and our industries.

If we win this war, we win it for ourselves as well as for all those nations now so sorely pressed. If we lose this war, we let the whole world slip back into feudalism of the middle ages.

To the prosecution of this righteous war we have dedicated our fortunes, our lives, and our sacred honor. To the last man, and to the last dollar, we are pledged to our Allies.

We have been at war nearly a year. Our own imperative needs and the necessary aid to our Allies has begun to draw upon our resources.

The strain upon our communities is altering our lives and habits.

We are adapting ourselves to greater economics and we are speeding up our productivity.

But we are not afraid.

The Third Liberty Loan will soon be offered to the people of the United States. Each citizen here assembled is invited to consider the seriousness of the grim business in which we are engaged and, jealous as we know him to be of his rights as a self governing freeman, is earnestly urged to do all in his power to have the Loan subscribed in full promptly upon its announcement.

Well may you now, in town meeting assembled, copy the act of the first town meeting held in New England, at Plymouth, November 11, 1620, and in the presence of God and one another, covenant and combine yourselves together for your better ordering and preservation, by agreeing that the portion of the Third Liberty Loan allotted to your town shall be instantly over subscribed.

LIBERTY LOAN COMMITTEE OF NEW ENGLAND,
Liberty Building, Boston.

The proclamation of His Excellency Samuel W. McCall was read by the moderator.

PROCLAMATION

THE COMMONWEALTH OF MASSACHUSETTS
BY HIS EXCELLENCY SAMUEL W. Mc CALL, GOVERNOR

A PROCLAMATION

In order that Massachusetts may do her full part in rendering aid to the National Government, I urge that everyone assist so far as he is able by the buying of WAR SAVINGS STAMPS and THRIFT STAMPS.

The opportunity thus afforded, not only to help by lending a portion of our savings to the country, but at the same time to obtain securities with the credit and resources of the United States behind them, should not be neglected.

It is not given to all to serve upon the battlefield, but it is given to all to serve the country in some way, and in no way more effectually can those who are not at the front serve them by purchase of War Savings Stamps and Thrift Stamps.

The elimination of wasteful expenditure and the inculcation of thrift should be ever present, but at this time it serves the double purpose of helping the country and the individual.

I urge our people to do all in their power to encourage the development of War Savings to the end that its importance may be more generally realized, the advantages of thrift may be obtained for us and our country may receive the help of which she stands in need.

"Economy makes happy homes and sound nations; instill it deep."

Given at the Executive Chamber in Boston, this twenty-second day of February, in the year of our Lord, one thousand nine hundred and eighteen, and the Independence of the United States of America, the one hundred and forty-second.

By His Excellency the Governor,
SAMUEL W. McCALL.

Albert P. Langtry, Secretary of the Commonwealth.

God Save the Commonwealth of Massachusetts

RESOLVE

RESOLVED, That we, the citizens of Stoneham, Mass., in town meeting assembled, having before us the proclamation of the Governor of this Commonwealth issued February 22, 1918, will

aid in carrying through by all means in our power, the War Savings plan put before the country by the Secretary of the Treasury.

REPORT OF COMMITTEE ON DRAINAGE

In accordance with the vote passed at the annual town meeting March 21, 1917, your committee on Drainage, in connection with the Board of Selectmen, has caused the Town Engineer to prepare a plan providing for a rational and coordinate disposition of the surface drainage of the town, which plan is now on file at the headquarters of the Public Works Department, and may be consulted as occasion requires by our citizens. Inasmuch as the town has authorized the Selectmen to enter private property providing proper legal releases are first obtained from abutters, in order to take land by due process of law as occasion may arise, in order to provide for the proper disposition of surface and other drainage within the limits of the town, and to incur an expense not to exceed \$500 at any one time therefor, and inasmuch as it appears to be inexpedient, at the present time, on account of the large initial expense that would be involved, to take the necessary steps for legislative authority to establish a comprehensive drainage system, your committee feel that it would be unwise to ask for any specific appropriation for the purpose this year, and would recommend that further action be deferred until the next annual town meeting.

Respectfully submitted,

WILLIE H. WHITE, Chairman,
HERBERT H. RICHARDSON,
HUGH HAMILL,
CORNELIUS J. SWEENEY.

Voted, To accept the report of the committee on drainage as a report of progress.

Voted, That the Board of Selectmen be appointed a committee of three to express appreciation to the Executors of the Estate of Levi S. Gould, late of Melrose, for the legacy of \$300 given the town by Mr. Gould under terms of his will for care of the Gould family lot at the Old Burying Ground, it being the sentiment of the voters assembled in town meeting that said gift be accepted for the purposes mentioned.

The committee appointed to nominate members of the Finance and Advisory Board make the following

REPORT.

In compliance with the vote of the town passed the 4th inst.,

your nominating committee after due deliberation, nominates Fred H. Chase, Frank J. Howell, and John H. Hinckley to serve as members of the Finance Committee for three years.

Voted, To accept the report of the Nominating Committee.

Voted, That Fred H. Chase, Frank J. Howell and John H. Hinckley serve as members of the Finance and Advisory Committee for three years.

Voted, To nominate from the floor a committee of five to consider the advisability of revising the order of business in the conduct of future town meetings and to report the result of their deliberations at this meeting or an adjournment thereof.

Under the foregoing vote the following were nominated as that committee: John F. Wood, Herbert J. Brock, John Walsh, Norman P. Hersam, Walter H. Hatch.

Stoneham, Mass., March 22, 1918

To the Moderator:

Your committee on nominations for the Planning Board respectfully submit the following: Mrs. Frances Nickerson, Mr. Leon J. Barwood, Mr. Judson Whitehead, Mr. C. J. Sweeney.

Respectfully submitted,

A. B. WEBBER,

A. S. HOVEY,

O. W. RICHARDSON.

Voted, That Mrs. Frances Nickerson, Leon J. Barwood, Judson J. Whitehead and Cornelius J. Sweeney serve as members of the Planning Board for three years.

REPORT OF THE PLANNING BOARD ON RENAMING OF STREETS

The Town Planning Board respectfully recommend that the name of Park Road be dropped and Park Street be substituted in its place. Park Street would then run all the way from Maple Street to Marble Street. Also we would respectfully ask Mr. Freeman to rename the street now known as Parkway Road. We would also recommend that the name South Street be dropped and Border Road take its place.

We further recommend that Gerry Court and Dale Court be combined under the single name of Adams Court.

Mount Pleasant Street should be renamed; quite possibly the residents on that street could agree upon a name satisfactory to the town and to themselves.

North Street and North Ave-Rowe St. and Rowe Hill Road, Hill St., and Hill Court are unfortunate combinations and should eventually be remedied.

Finally we would recommend that no private street or way be taken over by the town as an accepted street so long as its name is such as to cause confusion with streets already accepted and named.

Respectfully submitted,

CHARLES J. EMERSON, Chairman.

Voted, To accept the report of the Planning Board and to adopt its recommendations.

Report of Board of Selectmen

To the Citizens of Stoneham:

Your Board of Selectmen respectfully submit their report for the year 1918 as follows:—

It has been our continued endeavor to give careful consideration to the conduct of the town departments under our supervision. Among the numerous matters of moment which have engaged our attention, financial problems have been foremost. Irregularities in the conduct of the office of Town Treasurer culminated in October with the arraignment in Woburn Court of W. Padilla Gray, Town Treasurer and Tax Collector, on the charge of larceny to an amount exceeding \$18,000. At the request of the Selectmen, auditors from the State Bureau of Statistics made a thorough and comprehensive examination of his accounts, which disclosed a shortage of \$18,300. At the November term of Middlesex Superior Criminal Court sitting at East Cambridge, the Grand Jury returned indictments against Gray for larceny and against John P. Haley, whom Gray, under authority given him by the Revised Laws, had appointed as Deputy Tax Collector, for larceny and receiving stolen property. (Gray pleaded guilty to the charge against him, January 22, 1919, and was sentenced to State Prison for a term of from 5 to 7 years. January 28th, the Haley trial was put over until the March term of the Court.)

On Oct. 14, the Selectmen appointed Charles A. Owen Treasurer and Tax Collector and your Board take pleasure in saying that Mr. Owen has proven himself conscientious and efficient in these offices, and has been of much assistance in straightening out our financial affairs, which were in bad shape.

Mr. Edward H. Fenton, Chief Examiner of the State Bureau of Statistics, was in charge of the audit made of Gray's accounts. His investigation extended over a period of several weeks. His report to the Board of Selectmen, prefaced by a letter from Hon. Charles F. Gettemy, Director of the Bureau of Statistics, follows:

December 10, 1918.

To the Board of Selectmen,

Mr. Leander V. Colahan, Chairman,
Stoneham, Massachusetts.

Gentlemen:—I submit herewith my report of an audit of the

accounts of the treasurer of the town of Stoneham, made in accordance with a vote passed by your board in pursuance of the provisions of Chapter 192 of the Acts of 1917. The report is in the form of a report to me by Mr. Edward H. Fenton, Chief Examiner of this Bureau, who was placed in charge of the work.

The result of the audit, as shown by the detailed report enclosed, is the disclosure of a shortage in the treasurer's accounts amounting to \$18,289.83.

The accounts of the treasurer have been so manipulated as to escape detection by the town auditors. In fairness to them, it may be said that items of expenditure had been carefully checked, but the system of accounts now kept lacks the necessary controlling accounts to furnish the basis for a complete audit, through which manipulation of financial statements would easily be disclosed.

An audit of the town's accounts is largely an examination of the town's records, past and present. Of itself, it furnishes no assurances for the future. To prevent a repetition of the unfortunate occurrences disclosed by the audit, steps should be taken to provide a more adequate system of accounts, which will furnish automatic checks on financial officers, and will assure to the town a complete and accurate statement relative to its finances in the annual town report.

The vast increase in the financial transactions of towns calls for radical changes in the accounting practices; while this need for changes in town accounting has been fully realized by this Bureau, such improvement can only be put into effect by the voluntary action of the town. I believe that, had there existed a proper continuing check on the principal financial officer, the loss disclosed by this audit would have been prevented.

Being in position to have a general knowledge of the old accounting methods followed in our towns, and knowing the resulting advantages where a modern accounting system has been installed, I cannot urge with too great emphasis that proper steps be taken in your town to insure the systematic keeping of the accounts, and to prevent a recurrence of what has happened in the past.

Very truly yours,
CHARLES F. GETTEMY, Director.

Mr. Charles F. Gettemy,
Director, Bureau of Statistics,
State House, Boston.

Sir:—As directed by you, I have made an audit of the ac-

counts of the treasurer of the town of Stoneham, and submit the following report thereon:

On my arrival in Stoneham, I immediately asked for a bank statement showing the condition of the accounts of the treasurer at the close of business on October 14, 1918. I then made memoranda of the condition of the books, and assisted the clerk in charge of the office in balancing the accounts of the day.

The treasurer had been absent during the day time for a considerable while, as he had enlisted in the merchant marine and consequently could not attend to his duties as a town official except evenings.

On the morning of the fifteenth of October the selectmen appointed a treasurer pro tempore, but before the books were turned over to the new treasurer I proceeded to balance them. When the safe was opened it was found that there were checks and cash aggregating \$9,201.54. The cash books had not been written up since October ninth. I proceeded to bring them up to date by entering the receipts as shown by the stubs and other memoranda in the office.

The selectmen's orders of the previous two weeks were checked and entered. Owing to the methods followed, considerable time was consumed before I could arrive at any conclusion as to the condition of the accounts; but in balancing up, I concluded that the general account was short a material sum.

I requested the selectmen to have the former treasurer meet us to take up the several items or accounts in question, which they did. I went over the receipts and payments listed with Mr. Gray, and he agreed that all these items should have been reported. When attention was called to a discrepancy in his accounts, he explained that this sum was represented by certain securities in safety deposit boxes in Boston. I then requested him to bring all pass books and securities for examination, so that the same could be audited and turned over to the new treasurer.

After I had waited for nearly a week, Mr. Gray's attorney appeared with savings bank books and securities amounting to \$21,216.71, all of which apparently belonged to the cemetery perpetual care funds. This total was \$10,836.36 less than the amount called for by the books; therefore no portion of this could be applied to the deficit in the general account.

The entries in the books were made in such a way as to make an audit particularly difficult. It cannot be stated that this condition was due to carelessness, as receipts were withheld from

the cash book while payments were entered during a given month, but the checks were not drawn until the following month, so that a balance taken from the cash book might be somewhere near the bank balance.

As the treasurer had stated that there was \$7,500 in liberty bonds in Boston, which represented the deficit in the general account, I made a special effort to follow all transactions involving such securities. His attorney presented only \$250 in liberty bonds at the time they were presented for verification. The only record of bonds purchased by the town was \$5,000 of the Second Liberty Loan, which were delivered to the treasurer on November 29, 1917, and \$2,500 of the Third Liberty Loan, which were delivered on September 19, 1918.

The \$5,000 bonds numbered 799762, 799763, 799769, 799770, and 799771 were sold in Boston on July 18, 1918.

The \$2,500 bonds numbered 678976 to 678980, inclusive, which were received on September 19, 1918, were sold in Boston on the same day for \$2,398.68, and a personal check was received for the same and cashed at the National Shawmut Bank on the same day.

On or about September 20 (the exact date could not be learned), the town auditors began an audit of the accounts and requested the treasurer to present his books and securities for verification. A certain number of bonds were presented, but no record of the numbers was made. I found upon investigation that the treasurer purchased in Boston \$7,500 worth of bonds on September 20 and the same were delivered to him by messenger, but were not paid for upon delivery. These bonds consisted of seven \$1,000 bonds numbered 1175048 to 1175051 and 1453789 to 1453791, and one \$500 bond numbered 5911. These bonds were purchased presumably for the purpose of showing the auditors that securities were on hand, since early in the following week the same bonds were sold in Boston, the check for the same being deposited with the Fourth Atlantic National Bank to the credit of Mr. Gray's personal account at The Tanners National Bank. A personal check was drawn on The Tanners National Bank dated September 25, 1918, in payment for the \$7,500 worth of bonds purchased on September 20.

The bankers and brokers have extended me every courtesy in verifying these transactions. So far as I can learn, no other transactions involving liberty loan bonds were negotiated through them.

The only liberty bonds found at the time of my examination were one \$100 and three \$50 bonds.

I attempted to reconcile the treasurer's accounts for certain periods to see if the discrepancies had extended over any considerable period.

On January 1, 1917, the cash book balance was \$11,175.47, which purported to be the balance at the close of the year 1916. In reconciling the bank account, it was found that numerous checks were drawn in 1917 on account of 1916 business, so that the first date upon which a reconciliation could be based was February 17, 1917. On this date the check book stub showed that the bank balance in the Stoneham Trust Co. was \$380.32. During the period from January 1 to February 17, 1917, checks aggregating \$13,319.25 were drawn on account of 1917. On January 22, 1917, the proceeds of a temporary loan of \$10,000 (\$9,813.90), had been deposited in this bank, but had not been entered on the treasurer's cash book until March, 1917. If to the balance of February 17 (\$380.32) is added \$13,319.25 (the checks drawn), and deducted \$9,813.90 (the receipt from the loan), it gives a bank balance of \$3,885.67 on January 1, 1917, which is \$7,289.80 less than the cash book calls for, and must be accounted for in some other way.

On May 1, 1917, the cash book balance was \$9,097.65.

The check book stub on April 28 showed a balance in the Stoneham Trust Co. of \$51.67, and the check book of the First National Bank of Boston showed a balance of \$3,000. The cash book showed receipts of \$2,376.06 in April, but these amounts were not deposited in the bank until May. April 28 there was drawn from the cemetery perpetual care funds \$2,500, and a deposit of a like amount was made in the bank on the same date, but this amount does not appear on the cash book as a receipt. Checks entered on the cash book in April and not deducted from the check book until May aggregate \$3,499.74. There were also checks aggregating \$242 deducted from the check book in April and not entered on the cash book until May.

If to the balance as shown by the check book stubs, \$3,051.67, we add the receipts shown on the cash book and the \$242 drawn on checks and not credited until May, it gives a total of \$5,669.73, this amount being \$330.01 less than the total of the charges made in April for which the checks were drawn in May (\$3,499.74) and the \$2,500 which had been withdrawn from the cemetery perpetual care funds.

There must be accounted for in some other way the cash bal-

ance as shown by the cash book, \$9,097.65, plus the \$330.01, or a total of \$9,427.66.

On March 1, 1918, the cash book showed a balance of \$7,137.58. This was reconciled back to the balance as reported at the close of the year 1917. The reported balance on January 1, 1918, was \$2,028.87, and the receipts from January 1 to February 28, 1918, were \$27,209.51, making a total of \$29,238.38. The payments shown by the cash book for the period from January 1, to February 28, 1918, were \$22,100.80, leaving a balance of \$7,137.58.

Included in these payments were items aggregating \$4,200.61 for which checks were not drawn until after March 1. A receipt of \$557.44 on account of taxes, deposited in the bank February 19, 1918, was not shown on the cash book until after March 1. This would increase the balance from \$7,137.58 to \$7,695.02.

Payments on account of state aid, soldiers' relief, and soldiers' dependents, aggregating \$1,341, which had been paid prior to March 1, had not been entered on the cash book until after that date.

The balance of \$7,695.02, plus \$4,200.61 reported paid but not paid until after March 1, less the \$1,341 not reported, would leave a balance of \$10,554.63 to be accounted for.

The bank statement of February 27 for the Stoneham Trust Co. showed a balance of \$670.60, and a deposit of \$107.12 was made on February 28, making a balance on the latter date of \$777.72. Against this there were outstanding checks of \$1,164.79 which would show an overdraft in this account of \$387.07. The check book stub showed a balance of \$710.52 to which must be added \$5.37 interest on deposits, and a deduction made of \$102.96 on account of error in stub 22853, making a balance of \$612.93. Check stub 22793 for \$1000, which represented a check drawn and paid in February, was not deducted until March 18, so that instead of there being a balance, as shown by the stub, the corrected account showed an overdraft of \$387.07 which corresponded to the bank statement reconciled. The other bank deposit in the First National Bank showed a balance of \$328.69 on February 28, which corresponded with the reconciled bank statement of February 21.

The shortage existing in the treasurer's accounts, as disclosed by the audit, was \$7,453.47 in the general account and \$10,836.36 in the cemetery perpetual care funds, making a total of \$18,289.83.

The books and funds were turned over to the new treasurer on October 15, 1918, and the accounts were reconciled on that

date. Tables showing the reconciliation of cash, reconciliation of the bank account, and audit adjustments follow:

The adjusted cash reconciliation includes correcting entries made necessary by the discovery of errors in the books. In this table the net deficit in the general town accounts is \$7,453.47.

The treasurer had carried a special account for sewer and water connections. This account was checked in detail from January 1, 1917 to October 14, 1918, and shows a balance of \$765.84, to which should be added \$13 in old bills in the safe, making a total of \$778.84.

The total of the slips showed the deposits to be \$778.

This special account was in the Stoneham Five Cent Savings Bank. While the amount was practically the same as the slips called for (difference proved to be the interest credited in May, 1918), this balance included a deposit of \$722.21 made on October 14, 1918. It is clear that funds received had been held for a considerable time before deposit was made to the credit of the special account. In the cash adjustment table credit is given the treasurer for \$120 and for \$8, these amounts representing amounts credited in the general account, but not charged to the special account.

The debt and interest payments were checked with the amounts becoming due. In the cash adjustment table the treasurer is credited with two items of interest on temporary loans. These amounts were paid through the bank and represented amounts charged on temporary loans not paid when due.

There was in the treasurer's possession one \$1,000 water bond, seven \$1,000 school bonds, and two \$1,000 sewer bonds that had never been issued. All of these bonds had coupons attached. As these coupons bear the names of treasurers not now in office, and as many of the coupons are overdue, they should be cancelled.

The treasurer was also deputy tax collector in 1916, and tax collector for the years 1917 and 1918.

As collector of taxes, he appointed a deputy with the express understanding that the deputy's services should be paid for by the collector. Numerous checks were drawn for both W. P. Gray and J. P. Haley, which in amount correspond to the amount the collector was to receive and the amount he purported to pay his deputy. There are, however, some checks considerably in excess of the amount due for salary. One check of \$300 was drawn on March 7, 1917, to W. Padilla Gray and John P. Haley, and was deposited in the Old Colony Trust Co.

The following table shows a summary of checks drawn in

favor of Messrs. Gray and Haley compared with the amounts authorized by the selectmen and approved by the auditors:
From April 29, 1916 to October 14, 1918:

The former treasurer was also tax collector for the years 1917 and 1918, and deputy tax collector for the year 1916. His accounts for the year 1916 were examined and reconciled with the accounts of the tax collector. The accounts for the year 1917 were checked and reconciled, the small differences found being due to clerical errors.

Verification notices were mailed to a number of persons whose names appeared on the books as owing the town. With one exception, no replies have been received stating that the accounts have been paid, other than as appears on the books. I am convinced that the tax accounts for the year 1917 are correct, the one exception being a tax of \$6.80 for which claim is made that it has been paid. If a properly receipted bill is presented, the amount should be added to the deficit of the treasurer and collector.

In reply to our verification notice sent to the holder of the tax titles, it was stated that the taxes for 1917 and 1918 had

not been paid, but claim was made that the collector had collected \$258 for ten title deeds, and had not paid the money to the holder of the tax titles.

The bills for the 1918 taxes had not all been sent out at the time I began my examination, which was prior to the date on which taxes for the year 1918 were due, therefore it did not seem advisable to send out verification notices for the 1918 taxes.

The trust funds belonging to the town, as shown by the annual town report for the year 1917, were examined and checked. The following funds were examined and found to be as reported:

Board of Trade Central Square Improvement Fund	
Stoneham Five Cents Savings Bank book No. 13126	\$ 37.97
James W. MacDonald Fund	
Stoneham Five Cents Savings Bank book No. 13694	138.71
Richardson Library Fund	
Stoneham Five Cents Savings Bank book No. 13124	119.46
James A. Stockwell Shade Tree Fund	
Five matured shares. Co-operative Bank certificate No. 29	1,000.00
Matilda M. Dale Cemetery Fund	
Stoneham Five Cents Savings Bank book No. 10071	32.31

The accounts of the cemetery perpetual care funds and the George L. W. Dike library fund were examined and checked. Prior to 1914, it was the practice to treat the money deposited for perpetual care of cemetery lots as general funds of the town, crediting the fund with five per cent interest. During the year 1914 these funds were restored and deposited in savings banks, or invested in securities. The treasurer had a book in which to record the transactions of the trust funds, but the names and amounts deposited for perpetual care, the interest received from investments, and the amounts paid for care of lots were the only transactions recorded.

Some of the securities are marked in pencil, "Cemetery perpetual care funds, see ledger page 51 to 53," and I am of the opinion that the transactions for the year 1914 were recorded on these pages; but pages 49 to 54, inclusive, have been cut out of the book, and it was therefore necessary to make up proper cash book entries and ledger accounts for the funds from January 1, 1915 to date. This I was able to do by making a complete transcript of the transactions as recorded in the several savings bank books, and of the several changes in the securities and interest received on the same, as shown in the list of securities on hand as reported in the town reports from year to year.

From the accounts when made up it would appear that these funds had been handled without any serious discrepancy until after July, 1916. From then on it is apparent that the funds were not properly handled; as an example:—On December 26, 1916, \$5,000 was withdrawn from the Stoneham Five Cents Savings Bank (book No. 13127). This was paid to the treasurer by check, and the same was used to take up a temporary tax loan, through the First National Bank of Boston. While the payment of the note appears on the treasurer's cash book, the receipt of \$5,000 from the cemetery perpetual care funds by the town does not appear.

On the same date (December 26, 1916) \$2,500 was deposited in the Stoneham Five Cents Savings Bank. This was by check drawn on the Stoneham Trust Co. from the general funds of the town, although there were not at that time apparently any funds in the general accounts which belonged to the trust funds, other than the \$5,000 mentioned above. The balance of the \$5,000 (\$2,500) was deposited in the Stoneham Five Cents Savings Bank on January 3, 1917.

The accounts of the funds appear to have been carried correctly from that time until the latter part of April, 1917, when

\$2,500 was withdrawn from the Stoneham Five Cents Savings Bank. This was deposited in the Stoneham Trust Company to the credit of the town account on April 28, but no record of such transfer was made on the books of the town.

On May 23, \$300 was withdrawn from the Stoneham Five Cents Savings Bank and deposited in the Stoneham Trust Company on the same date.

On May 24, \$1,000 was withdrawn from the Melrose Savings Bank and deposited in the Stoneham Trust Company on May 29.

On June 1, \$2,000 was credited in the general cash book as having been paid for a highway note maturing on that date, belonging to the trust funds, but this money does not appear as having been deposited in any of the savings bank accounts, and there is no record of any securities having been purchased.

On June 6, \$600 was withdrawn from the Melrose Savings Bank; \$1,500 from the Boston Five Cents Savings Bank; \$300 from the Charlestown Five Cents Savings Bank, and \$1,000 from the Stoneham Five Cents Savings Bank (G. L. W. Dike Library Fund), making a total of \$3,400. This was deposited in the First National Bank of Boston to the credit of the general town account, but no record of the transfer of this money appears on the books of the town. It is apparent from an examination of the bank accounts that this money was undoubtedly deposited to cover up a shortage in the general accounts of the town, as the cash books show that there should have been sufficient money in the treasury to pay all the authorized payments, although the bank accounts would show that there was not sufficient money without these deposits. This money was not returned to the trust funds until November, 1917, when the first purchase of liberty loan bonds was made, and in December, when a transfer of \$5,000 on account of water bonds was made.

In February, 1918, \$2,000 was withdrawn from the Dike library fund savings bank account, and presumably water bonds B8 and 9 were purchased from cemetery funds, as I found these two bonds with the savings bank book of the Dike fund. There is no record to show when these bonds were purchased, but as the treasurer has credited the cemetery funds with interest on the \$7,000 held by the cemetery funds on June 1, I have assumed that these bonds were purchased on that date.

When the funds were examined as of October 15, there should have been \$3,586.36 cash in the cemetery funds, as there was no evidence of this amount of receipts for the year having

been invested, and the \$7,500 worth of liberty bonds were also missing, the disposition of which has previously been stated.

Table showing the investments and transactions of the cemetery perpetual care and the George Levi Woodbury Dike fund follow:

The town of Stoneham had attempted to provide a system of checks which would insure the proper expenditure of public mon-

eyes for the purposes authorized by the town; while some progress has been made along these lines, the system does not provide for accounting control.

The amount of business transacted by the municipality warrants not only the expenditure of a sufficient amount of money to provide adequately for independent accounting control, but it also makes it imperative that steps be taken to provide this as a protection both to the taxpayers and to the town officers.

While engaged in making the audit, I was greatly assisted in my work by the several town officers, especially the Board of Selectmen, Town Clerk and Town Counsel.

For the co-operation received and the assistance rendered, I wish on behalf of my assistant and myself to express my appreciation.

Respectfully submitted,

EDW. H. FENTON, Chief Examiner.

The many details of routine work have given rise to some perplexing problems. It has been difficult to carry on town work with economy because of war conditions. High cost of labor and materials have prevailed. We believe, however, that under the circumstances, the Public Works Department has made an excellent showing. Supt. C. J. Sweeney has continued in charge and the Board again desires to place itself on record as feeling assured that Mr. Sweeney has proved his value to the town in the capacity he has held since May, 1913. His salary the past year has been \$1800. The detailed report of the Superintendent of Public Works is given on another page.

Transportation problems have become acute during the past year and fares have been materially increased. Your Board has kept closely in touch with the situation and has been represented at the several hearings. The Bay State Street Railway Company has discontinued its line to Reading and in December planned to discontinue service to Woburn. By arrangement with Receiver Donham, however, a compromise was effected as to the Woburn line and the service between that city and Stoneham continues. A jitney service has been established between Stoneham and Reading, with proper safeguards as to bonds for the protection of the public, etc.

As a result of petitions filed with the County and Commonwealth, and after hearings, portions of Main and Pond streets have been rebuilt. The County has contributed \$1875 for the rebuilding of Main street and \$850 for Pond street, while the State has contributed equal amounts for both streets, making a

total of \$5450 your Board has secured in contributions from the County and State for road work.

There is still pending one damage suit resulting from the taking of private land by eminent domain for the construction of sewers in the Lincolnville district, and the controversy with the New England Sanitarium, arising out of the assessment of taxes upon that institution, has reached the Supreme Court and a decision is shortly expected.

The Edison Electric Illuminating Company has well maintained the street lights during the past year and has at all times been willing to co-operate with the town to insure proper service. The Town's contract with the Company has a period of four years to run before its expiration.

Your Board has again refused to grant any pony express license this year, and we feel that the town is free from violations of the liquor laws. The Selectmen at all times have endeavored to enforce the law as to the illegal sale of liquor and in all other respects, and have been glad to co-operate with any person or persons who may have knowledge of any violations thereof.

Much time has been required to dispose of the numerous cases of dependents of those who have been in the service of our country and the questions involved have given rise to numerous problems. In its deliberations, your Board has continued its endeavors to see that justice has been done in each particular case and proper compensation given.

FINANCES

Another year your Board hopes that the appointment of a Town Accountant and the installation of the State or Gettemy system will facilitate the proper conduct of town finances. Your Board urges the speedy adoption of this improved method and confidently expects that the innovation will be voted at the special town meeting to be called in January for the consideration of this and other kindred matters. In view of the present condition of town finances, it may become necessary to petition the Legislature for authority to issue notes in payment of the deficit existing. The Finance and Advisory Board has this matter under consideration. For a detailed statement of the financial condition of the town, we refer you to the printed report of the Auditors, to be found elsewhere in this book.

LEGAL AFFAIRS

During the year Herbert H. Richardson has continued to act

a legal advisor for the town. This is the eighth year that Town Counsel Richardson has served in this capacity. The wisdom of having an attorney regularly retained to look after the frequent legal questions arising, is evident. The numerous matters referred to the Town Counsel have been well and carefully attended to. It has been the policy of the Board to defend rather than settle suits, especially suits for personal injuries claimed from highway defects, which, we feel, are questionable in many instances, and as a result, several Court cases have been heard and others are pending. The appended report of the Town Counsel evidences, in some degree, the increasing volume and importance of affairs referred to the Legal Department.

TOWN COUNSEL

To the Honorable Board of Selectmen:

I have the honor to submit to you my eighth annual report as Town Counsel:

LAW SUITS

Town of Stoneham vs Commonwealth (Spot Pond Case)—Middlesex Superior Court, Commissioner appointed to hear and report evidence.

New England Sanitarium vs Town—Middlesex Superior Court, action to recover taxes paid under protest. Case heard at April term of Court before Judge Morton and reported for determination to Supreme Judicial Court—arguments at January, 1919 sitting of the Full Bench. The final decision in this case will be handed down shortly.

Blaisdell vs Town—Supreme Judicial Court. Case heard on briefs and plaintiff's exceptions from decision of Judge Fessenden in Middlesex Superior Court, at January, 1918, sitting of Full Bench; final decision handed down by Supreme Court, April 7, 1918, over-ruling exceptions and confirming finding of lower Court—final judgment for defendant Town. This was a suit for \$5000 for damage to property by alleged diversion of surface drainage.

Munnis vs Town—Middlesex Superior Court; assigned for trial at May sitting of Court in Lowell; settlement effected in sum of \$150 without costs. This was an action of tort for alleged personal injuries, ad damnum \$4000.

Flynn vs Town—Middlesex Superior Court. Reported last year. In this case, on defendant's motion for new trial, Judge King adjudged the verdict excessive and ordered plaintiff to remit

\$500, or new trial to be had. Plaintiff decided to remit \$500 and execution was satisfied and filed in Court in January, 1918.

Comins vs. Town—Middlesex Superior Court; assigned for trial at November sitting of Court in Cambridge; in this case suits were brought jointly against the Town, the Bay State Street Railway Company and Clark, independent contractor; settlement effected in the sum of \$200, of which Town paid one-third (\$66.67), without costs. This was an action of tort, ad damnum \$1000 for damage to automobile by reason of alleged highway defect.

Junkins vs Town—Middlesex Superior Court; action of tort for alleged personal injuries, ad damnum \$3000; after a trial at the December term of Court, sitting at Cambridge, before Chief Justice Aiken and a Jury, verdict was returned for plaintiff in the sum of \$900. Motions for new trial were filed and will be heard January 4, 1919. At the trial there was considerable conflicting testimony and if it becomes necessary, the case will be taken to the Supreme Court upon exceptions.

McKenna, Petr. vs Town—Middlesex Superior Court, action of tort, ad damnum \$1000 for assessment of damages sustained by taking of land for Lincolnville sewer (assigned for trial at the January, 1919, term).

Newell vs Town—Middlesex Superior Court, action of tort, ad damnum \$10,000, for alleged personal injuries (assigned for trial February 17, 1919).

Knight vs Town—Suffolk Superior Court. Action of tort, ad damnum \$4000. Pending.

Hall vs Town—Middlesex Superior Court. Action for abatement of taxes, ad damnum \$500; settled without entry of writ, which involved the collection of all taxes due Town upon abatement of \$100.

Hodgdon vs. Town—Middlesex Superior Court, action of contract, ad damnum \$500; suit to recover \$258.59, money received by W. P. Gray, former Town Treasurer, for the purpose of redeeming a tax title and not paid over to plaintiff. Writ returnable February, 1919.

Town of Stoneham vs Gray—Middlesex Superior Court, action of contract, ad damnum \$20,000 to recover back amounts received by defendant as Town Treasurer and Tax Collector, and converted to his own use.

Commonwealth vs Gray—Fourth District Court of Eastern Middlesex and Middlesex Superior Court, on charge of larceny of town funds to the amount of \$18,300.

Commonwealth vs Haley—Middlesex Superior Court, on charge of larceny and receiving stolen property, as Deputy Tax Collector.

McKenna vs Town—Fourth District Court of Eastern Middlesex, action of tort, ad damnum \$1000 for alleged personal injuries—pending.

CLAIMS SETTLED

Claim of W. J. Walshe vs Town, for personal injury received on Pond street, settled and release given in sum of \$25.

Claim of A. J. LeDuc vs Town, for injuries to horse occasioned by defect on Chestnut street, settled and release given in sum of \$110.

Claim of Winton Company vs Town, (statutory notice received), for damage to automobile by reason of defect existing on Main street, settled and release given in sum of \$60.

Claim of B. W. Brannen, for damage to clothing as a result of freshly-tarred street, settled and release given in sum of \$10.

Claim of Albert E. Morrison, for damage to clothing as a result of freshly-tarred street, settled and release given in sum of \$5.

PENDING CLAIMS

The following claims for injury to persons or property are pending:

Claim of Rev. M. M. Adams vs Town for damage to automobile; referred to Insurance Company carrying Town liability.

Claim of Nicholas Crudden vs Town for personal injury received while employed by Public Works Department, referred to Insurance Company carrying Town liability.

Claim of Mrs. Gertrude Cannon vs Town for personal injuries sustained by an alleged defect on Warren street—statutory notice served.

At the request of your Honorable Board, I have been in attendance on several occasions, at important hearings before various Boards and Commissions on matters affecting the welfare of the Town and have been in frequent consultation with the Public Service Commissions and officials of the Bay State Street Railway Company regarding transportation matters.

As usual, I have been in regular attendance throughout the year at the weekly sessions of the Town Board and have rendered opinions and drawn legal documents as requested.

Town finances have presented many perplexing problems which have been referred to the Town Counsel and have necessi-

tated many special meetings with your Board. In connection with these matters, I have had numerous conferences and correspondence with State and bank officials and with the office of the District Attorney.

I have endeavored to protect and safeguard the legal rights and interest of the Town in the many routine matters and questions that have been referred to the Legal Department, and in conclusion I thank your Honorable Board, and through you the other Town Officers, for their efficient co-operation with me.

Respectfully submitted,

HERBERT H. RICHARDSON, Town Counsel

Other reports to your Board have been made as follows:—

2,600 feet of hose, 110 feet of ladders, and 557 gallons of chemical have been used at fires.

POLICE DEPARTMENT

We would again call attention to the condition of the motor and compressor which supply air for the fire whistle. During the past year the motor has been out of commission three times. On

one occasion it was necessary to send it to Boston for repairs. In our opinion it is liable to give out at any time to such an extent that it will be impossible to have it repaired before the supply of air in the tanks is exhausted, and we strongly recommend that a new motor and compressor be installed, and the old one thoroughly repaired and kept in reserve.

We desire to thank your honorable board for the encouragement and co-operation extended to the Department. Our thanks are also due to the Police Department for assistance rendered, and we wish to commend the officers and members of the Department for the faithful and efficient performance of their duties.

ALBERT J. SMITH,
LOUIS F. BRUCE,
JOSEPH TANSEY,
Engineers of Fire Department.

The automobile traffic in town is rated as one of the highest in the State by the Highway Commission and it continues to be an increasing menace. Strict supervision has been necessary to safeguard the lives of our citizens. During the past year there have been 26 accidents from this cause, two of which were fatal, and the others of a more or less serious nature. Considering the volume of traffic, we feel that we have been fortunate in not having a larger number of casualties. It will be necessary to keep the officers on three crossings doing traffic duty in the future, during the busy part of the year. On Sundays and holidays, special officers will have to be used for that purpose, which will cause an unavoidable added expense. Every member of the department has tried to do his part to make the streets safe for travel and thanks are due the good citizens who have assisted the officers in any way, to help detect crime or guard against it.

The personnel of the department has changed in the past year. On April 20th, Officer John C. C. Small died while on duty; since the establishment of a regular police department on April 23, 1889, he had been a faithful and trusted officer and he commanded the respect and confidence of all who knew him.

On May 19th, Officer James J. Scally, who also had been connected with the department since its inception, having been appointed a special officer at that time, and who had served more than twenty-five years on the force, gave up as a regular patrolman. Dennis L. McKinnon and George E. Johnson were appointed to fill these vacancies, and have performed creditable service.

Sometime in the future, it is to be hoped that the Town will see fit to accept Chapter 327, Acts of 1904, which provides for pensioning permanent members of police departments after 25 years of service, or those who have become incapacitated while in the performance of their duty.

In my report last year, I called attention to accidental shooting cases of a serious nature, in which boys of tender age were

involved. There still seems to be a desire for weapons on the part of youth who have not reached the age of discretion. This tendency, indeed, seems to have increased—possibly as a result of the war spirit that has prevailed and from an endeavor to emulate moving picture “heroes.” I would respectfully call the attention of parents to Chapter 199 of the 1909 Statutes, which provides a penalty from \$10 to \$50 for anyone furnishing a minor under 15 years of age with an air gun or other dangerous weapon.

To your Honorable Board, I extend my appreciation of the interest and support given me in my efforts in trying to enforce the law and maintain good order in our Town.

Respectfully submitted,

SUMNER H. GREEN,

Captain of Police and Lockup Keeper.

REPORT OF SUPERINTENDENT OF PUBLIC WORKS

*To the Honorable Board of Selectmen,
Stoneham, Massachusetts.*

GENTLEMEN:—I submit herewith my report for the year 1918, as Superintendent of Public Works.

Owing to the scarcity of labor and the high prices paid for labor elsewhere, it has been hard to get men to stay on the work as steadily as other years, and, as a result, not as much work accomplished as could have been otherwise. It has been my endeavor to keep within appropriations as closely as possible. Specific amounts expended on the various work will be found in the report of the Auditors, elsewhere in the Town report.

CLEANING STREETS

As customary in the spring, streets should have been gone over, gutters cleaned out, holes filled, etc. This work was not done, however, until late in the summer. Most of the streets were gone over and gutters cleaned, holes filled, etc.

A man has been kept in the central part of the town most of the year keeping the papers, dirt, etc., cleaned up. Catch basins were cleaned out several times during the year, and numerous repairs made upon them.

POND STREET MACADAM

Pond Street, from Summer Street, 850 feet south was constructed with bituminous macadam. This work was done in accordance with specifications of Highway Commission, at a total cost of approximately \$2,547.73. One-third this amount contributed each by State and County.

WINTHROP STREET DRAIN

A drain was installed on Winthrop Street near the corner of Dean Street and running southerly a distance of 450 feet, of 12" pipe, and two catch basins constructed. Much ledge was found, which greatly increased the cost of this work.

MAIN STREET MACADAM

Main Street, from Montvale Ave. to Boston & Maine Railroad crossing was reconstructed with bituminous macadam, six catch basins were installed and 350 feet of 10 and 12 inch pipe drain. This work was done in accordance with specifications of the Massachusetts Highway Commission, at a total cost of approximately \$7,583., of which the County and State paid one-half the total.

STREET RAILINGS

Street railings were repaired and replaced in various parts of the town.

STREET SIGNS

A number of street signs were placed on different streets and new posts set where repairs and replacement was needed.

PLEASANT STREET WALK

A tar walk and curb was constructed on the southerly side of Pleasant Street in front of residence of Thomas Ireland, a distance of 57 feet. Walk and 36-ft. curb.

STREET OILING

Not as much oiling was done the past year as has been done in previous years, owing to the fact that the United States Fuel Administrator would not allow oil to be used on streets that were not considered main thoroughfares. No oil or tar could be used on streets that were called residential streets. Owing to the high cost of oil and labor, also the reduction of assessment from 6c to 4c per foot, this appropriation was considerably overdrawn.

FRANKLIN STREET DRAIN

A drain has been laid beginning at a culvert on Franklin Street near Summer Street and running northerly a distance of 300 feet, to Pond Street, and two catch basins installed at the corner of Pond Street.

SPRING STREET

No work was done on Spring Street on account of the high cost of labor and materials and the County Engineer would not recommend to have same done, as war work was deemed more

necessary, and a drainage problem confronted, which would cost a large sum of money—much more than the appropriation made.

CONCRETE REPAIRS

Several attempts were made the past year to get contractors to bid on this work, but none wished to do it. Late in the fall, work was done by the Highway Department. 2,600 square yards of resurface work in various parts of the town was done; in places which, in the opinion of the Superintendent, were most in need of repair.

ICE AND SNOW

The past winter snow plows were used several times, but in the way the storms cleared, the sidewalks were left in an icy and dangerous condition, and therefore had to be sanded every few days, causing a heavy expense against this appropriation.

STOCK, TOOLS, ETC.

A conservative estimate of stocks, tools and equipment in the department is:

Water department, \$5,000.; Highway department, \$9,000.; Sewer department, \$1,800.00.

The Superintendent furnished his own conveyance the last year, the town paying running expenses.

The bay horse that has been with the department for the past 10 years or more, had outlived its usefulness, became lame and was put out of the way.

WATER DEPARTMENT

During the past year this department has been under very heavy expense. Owing to the extreme cold of last winter, nearly 900 different services were frozen; some of them many times. 800 meters were frozen and had to be repaired or replaced by new ones. Many services were found leaking and not wholly repaired until well into the spring. Also the main was frozen at Wakefield Park, which necessitated an electrical thawing outfit to relieve the trouble, which was very expensive. There were also frozen mains on West Hancock Street, Rafferty Road, Steele Street, West Street, Wright Street, and Summer Street. A number of hydrants were frozen and had to be replaced with new. Number of services laid, 11. All water works material cost about double what it had in previous years. All services are now metered.

BOW STREET COURT

A 4" main has been laid in and through Bow Street Court a distance of 200 feet. .

WRIGHT STREET MAIN

A new 6" main was laid on Wright Street from Gilmore Street, connected with Montvale Avenue. Much ledge was found on Wright Street at this point.

SEWER DEPARTMENT

The entire system has been gone through the past year in the spring and again in the fall, regulators cleaned, roots were removed in many places, and other places dug up and cleaned out. During the year there were 8 new house connections made.

EQUIPMENT

The equipment of the Public Works Department is in good repair. The stone-crusher purchased a few years ago is not as much used as, since the installation of a big plant in Winchester, stone can be purchased and delivered on the work cheaper than it can be got from the town ledge, owing to the care that must be taken to cover blasts in that place, and no big blast made. The horses purchased several years ago are still doing good work and are also used on the ladder truck in cases of fire.

In closing, I wish to express my thanks to your Honorable Board for your uniform courtesy, consideration and advice, to the Town Counsel, and to the employees of the Department, and others, for their assistance during the year.

Respectfully submitted,

CORNELIUS J. SWEENEY,

Superintendent Public Works Dept.

ARMORY

As has been the case for the past several years, the Armory has been anything but a paying proposition and it is extremely doubtful if it can be made to pay expenses under present conditions. The local Red Cross has continued to occupy the old H Company gun room and officers' room as its headquarters without rent and patriotic and other organizations engaged in worthy causes have been given the use of Armory Hall free of charge or for running expenses. This, of course, has required some extra expense in the matter of heating and lighting. It has been found necessary to install a new Gurney boiler in the Armory and to make other incidental repairs at an expense of

\$1,573.55. This outlay had the approval of the Town Finance Committee.

JURORS DRAWN

Guy Trombetta, A. Duncan Clark, Fred Steele, George H. Cogan, Willie H. White, John F. Brosnehan, Charles M. White, Fred E. Kerns, Charles Baldwin, Ernest H. Andrews, L. B. Renfrew Gray, George C. Kinsley.

STREET LIGHTS

Lights have been installed as follows: Curve Road and Bow Street.

BROWN TAIL MOTH

The town is required to raise and expend the sum of \$2,544.15 during the coming year to carry on the work required by the Commonwealth.

Report of Trustees of Public Library

To the Citizens of Stoneham:

The Trustees of the Public Library herewith present their annual report.

During the past year the affairs of the library have progressed smoothly and quietly. The necessity for participation in the various war activities has made other interests appear of minor importance. The great amount of work which has been done to secure the welfare and happiness of our boys in the service, and their families here at home has left people less time than formerly for reading anything except the all-absorbing newspaper. However, the library has been kept up to its high standard of efficiency, 212 books having been added to the circulating department.

The reading room is supplied with a large number of current magazines on various subjects, the New Republic and the Flying Magazine having been added during the year. The daily papers to be found there are The Boston Herald, Post, Record, Globe, Transcript and Stoneham Enterprise. Foreign books have been loaned us from the traveling libraries of the Massachusetts Free Public Library Commission. Providing reading matter for foreigners is considered an effective method for Americanizing them as in this way they become acquainted with our customs through the medium of their own language.

A year ago we were most unfortunate in losing the services of Miss Julia L. Crocker, and now we are again obliged to accept the resignation of our librarian, who is to enter upon a different field of work. Miss Margaret O. Wood has been with us a little less than a year, but has shown herself efficient and faithful in the performance of her duties. Mr. Albert F. Buck is to fill the position thus made vacant. Last June Miss Grace Patten, Associate Librarian, severed her connection with the library. Her genial manner and her knowledge of library methods made her a valuable member of the staff.

Mr. William T. Haymand has been highly satisfactory in his position as janitor during the past year.

For the ensuing year, the Trustees recommend the appropriation of \$2100, the dox tax and receipts.

Respectfully submitted,

BENJAMIN J. HINDS,
 GEORGE A. HINCHCLIFFE,
 CHARLES H. CHASE,
 CORA E. DIKE,
 SARAH A. LYNDE,
 FITZ H. STEVENS,

Trustees of Public Library.

To the Trustees of the Stoneham Public Library:

Among the library's activities during the past year were the two campaigns for books for the soldiers and sailors. Although the response to the appeals was not as generous as was hoped, the library was able to send 182 books to the Overseas Despatch Office in Cambridge. Thanks is due to the various business men in town, who kindly allowed posters advertising the campaign to be placed in their store windows.

Another feature of the past year has been the numerous posters which have been received from various sources in connection with the different war drives. Besides their advertising qualities, the posters were attractive in themselves.

During the early Spring, a series of story-hours was given at the library on Saturday mornings, under the auspices of the Stoneham Woman's Club, with Miss Lois Rickey as story-teller. The average attendance was 42, and resulted in a demand for books relating to the stories told.

A slight change has been made in the arrangement of the books in the Children's Room, thereby placing books of the same nature together, according as they were called for; i. e., Fairy stories, Indian stories, animal stories, Scout and Campfire stories, school and college stories.

A stereoscope has been presented to the library, and proved to be of much entertainment to the children.

The Woman's Education Association loaned the library a series of pictures entitled "Conquest of the Air," which was on exhibition for two weeks during the Summer.

A collection of pamphlets bearing on the war have been arranged and indexed. This material will be valuable for reference work.

As in other years, the library has taken advantage of the inter-

library loan privileges, and books have been borrowed from the Malden Public Library, the Theological Library and the Boston Public Library.

We were exceedingly sorry to lose the services of Miss Patten as associate librarian, but glad that she has a much broader opportunity in the work she is now doing.

The librarian wishes to express her appreciation of the services rendered by the present assistants, Miss Mildred Howell, Miss Alfrieda Terry, Miss Martha Terry and Miss Pauline Foss. Without their efficient help it would have been very difficult to carry on the work of the year.

Report of Overseers of the Poor

To the Citizens of Stoneham:—

The following report for the year ending Dec. 31, 1918, is herewith submitted:

At a regular meeting held March 5th, the Board after being duly authorized, the personnel being unchanged, organized as follows:—

Walter C. Bancroft, Chairman.

• Sidney A. Hill, Secretary and Clerk.

John G. Berder, Supervisor of Farm.

James H. White, Warden.

Ella E. White, Matron.

Geo. W. Nickerson, M. D., Town Physician.

Under existing conditions, with which you are all familiar, we feel the Farm has been well managed. The crops were large and of excellent quality which was of great assistance in keeping down the expense.

The land owned by Mr. White adjoining was again utilized which enabled us to save the town land for hay which has proved, from an economical standpoint, wise judgement. No rental for same was charged. No better proof of the successful administration of the affairs at the farm can be obtained than for *you* to pay it a visit and note the degree of comfort that surrounds the inmates; also the fine condition of stock and buildings thereon.

OUTSIDE AID

Our benevolent organizations connected with our several Churches, Fraternal Societies, Woman's Clubs and Red Cross, have all done a noble work in assisting your Board which has made the outside call somewhat lighter than you would expect, but all cases brought to our notice have been carefully considered and assistance rendered when needed.

The number who have received aid during the year is 69, of whom 28 have settlements in other cities and towns.

The number who have paid partial board, 2.

Boarded by the State Board of Charity, 2.

Number of families cared for under Chapter 763, Acts of 1913, 6.

IMPROVEMENTS

Only such as were absolutely needed and those of minor nature have been made. The plant today stands in good comfort-

able condition and we do not at this time believe it wise to recommend additional improvements.

The Board are very grateful for the valued assistance of all societies and individuals who have so kindly aided us in the care of our unfortunates and that a special blessing may rest upon you is our earnest wish.

For the financial report we refer you to the report of Auditors.

Report of School Committee

TO THE CITIZENS OF STONEHAM:—

The School Committee herewith submits its Annual Report.

We began the financial year under very unfavorable conditions. In the midst of the most severe winter in many years, with little coal in hand, and the party having the contract not being able to furnish the needed supply it appeared as though we might be obliged to do as other towns were doing and close the schools. But while we often had but one day's supply on hand, not a session of schools was lost and thus far this year we are supplied with sufficient coming, to carry us safely through to warm weather.

During the year the Whittier schoolhouse has been re-shingled, and the gutters being decayed, have been replaced with new.

At the Lincoln Schoolhouse new concrete steps have been built. At the High School it was found that the putty was dropping off the windows and nearly every window in the building had to be repaired and the sashes drawn. A leak in the roof recently caused by slates being blown off caused some damage but was made much less than would have been the case by the prompt action of the janitor in getting into the loft and catching the water in buckets. Since school began also, one section of a steam boiler in this building was found leaking and a new section has been put in its place.

At the Longfellow School building the boiler which for many years has been giving way finally under inspection test burst, and a new one has been installed which we are pleased to report is doing perfect work.

The chimneys on the Whittier and Washington school houses were found in such dangerous condition that they had to be rebuilt nearly from the roof.

We are glad to report that these with the minor repairs that are always necessary, have kept the buildings in fairly good order.

The coming year new steps must be made at the Washington school house—several rooms in the different buildings must be re-tinted and the grounds around the three smaller houses should be regraded.

At the Lincoln school yard the fence which has been breaking down for several years is now beyond repair and is a disgrace to the town. It should be replaced with a new wooden one or what would be much better and we believe cheaper in the end, a modern iron one.

It has been found necessary in view of the still higher cost of living to again advance the salaries of the teachers and janitors. A comparison of the salaries paid here and those of other towns of like size will show that we are still getting our work done as reasonably as any. The quality must not be lowered. The taking off the cars from the Reading line left the pupils of the North Street section without means of transportation, and we have contracted with Mr. Frank Apalakis to run a jitney to bring to and return from school, the pupils from there.

Thanks are due and are hereby extended to the parents and citizens for their loyal cooperation with the school authorities in helping to make the schools successful.

For further detail we refer you to the Report of the Superintendent of Schools.

Report of Superintendent of Schools

TO THE SCHOOL COMMITTEE OF STONEHAM, MASS.

GENTLEMEN:—The 29th annual report of the superintendent of schools is herewith presented. The year has been one of unusual interruptions, yet the work has been carried on as efficiently as possible. The one session plan introduced in the winter has helped in that the teachers were able to give better and more help to backward pupils in the afternoons.

The enrollment has been seriously affected by the labor conditions. The high wages offered induced many to leave the High School and our members have fallen off nearly twenty-five per cent. It is decidedly to be regretted that so large a response to the immediate money return for labor is to be found. In this "after-the-war" period the value of an education will be more clearly seen than ever before, and the boy or girl who has almost completed the high school course will find it more difficult to take his or her place in the well paid class than in the past. It is to be hoped that the parents will use every effort to keep their children in school.

ATTENDANCE

The school attendance has been as well maintained as we could expect under the conditions which have existed. Contagious disease has been well in hand, there having been no epidemic conditions except the prevailing influenza which fell upon us lightly in comparison with surrounding places.

In some instances parents have shown an indifference which is extremely regrettable. With our one session plan, dental engagements, shopping and pleasure trips should be arranged for the free hours and only in aggravated cases should the pupil be kept at home. As a result of this indifference the High School day has been lengthened one period and all who are deficient in scholarship, or in attendance are required to make up work in this period. The plan also gives opportunity to those who desire to remain and receive additional assistance in this study period.

The employment of an attendance officer at a salary sufficient to justify his investigation of all cases of absence would be a great help in solving the problem. In the experience of many

towns and cities this has been found a very wise investment.

ONE SESSION PLAN

The change in hours from two sessions was originally made in response to the call of the Fuel Administration. We have continued it so far because it has been found to give excellent results in the school work, and allows teachers to give more attention to backward pupils by calling them back in the afternoon. It also gives opportunity for the older pupils to work afternoons. If the bill for compulsory education becomes a law the present plan will doubtless be the best plan—devoting the afternoon to physical training at the old Armory which seems to be the only available place for such work. The only criticism seems to be based on domestic disarrangement. The attendance is better, and so far as can be seen the health of the pupils is, in many cases, improved, and in no case harmed. Several places trying the plan have continued this year with increasingly good results.

A recent poll of the parents in one district representing 135 children at home or attending school resulted in a vote of parents of 113 in favor of one session, and 22 in favor of two sessions. The better health of the children is coming to the front in the reasons given for the preference, being cited in 29 out of 54 replies.

EDUCATIONAL STANDARDS

In the past few years educators have made an effort to establish standards in the common school branches. We are beginning to have set for us reasonable and efficient standards. To be reasonable a standard must be such that it can be attained by pupils under school conditions and with a proper expenditure of time. Pupils are limited in their learning by inherited characteristics and all can not attain the same levels of skill. The standards now being set represent the median or average obtained by **research in many places and with many thousands of children.**

The second qualification of any standard is that it must be "efficient." By this it is meant that the standard must represent a degree of ability that equips a pupil to meet present and future demands with a high degree of efficiency. The world today demands much of the pupil leaving school and it is the business of the school to see to it that the pupil is given opportunity to meet these demands. The school subjects are often classified as tool subjects and content subjects. The tool subjects of the elementary school are reading, handwriting, the fundamental operations of arithmetic, spelling and language. These are used in the study of the content subjects, such as problems in arithmetic, literature,

history, geography and science. In the lower grades the necessity for thorough work in the tool subjects can scarcely be over-rated; failure to equip our pupils properly to read means that the assignments in the content subjects will not only consume an enormous amount of time, but will also destroy interest in school work because for them reading is a slow and difficult, and hence a disagreeable process. Again in handwriting we find the demand very heavy in our school work. When a pupil is given a test in school it is not only necessary that he write legibly but it is also very necessary focusing his attention upon the art of writing. Even if the tool subjects were not practical it would be necessary for the school to teach them well in the first six grades.

Standard tests in the fundamentals have been arranged by experts and give a basis for arriving at the true conditions in our classes. Measurement by these tests in the beginning of the year furnishes an inventory of the situation which the teachers face. Measurement at the close of the school year will reveal the extent to which the situation has been met. Many teachers have failed to see anything more than a new plaything. Standard tests are neither playthings nor teaching devices. They define the specific achievements of pupils which are to be attained by the use of subject matter. They also furnish a means of determining in a scientific manner the optimum time to be given to each subject. The time given to any subject has a value in dollars and cents. Economy demands that no more time be given to a subject than is necessary for a pupil to attain a satisfactory standard of achievement. These tests also furnish an effective reply to chronic fault finders.

In the last term we have given preliminary tests in handwriting and plan to continue these tests as a means of diagnosis of individual as well as class needs. Tests in reading will be given the next term, and work with the Courtis Practice material and accompanying tests will continue.

THE TEACHING FORCE

Our teaching force has been subject to greater change this year than we have experienced for many years. Early in the year Mr. David H. Brown resigned to accept a much more lucrative position in Newton. Mr. Earle T. Thibodeau came to us from Norton, Mass. He was drafted in October and Mrs. Coy was placed in charge of his classes and rendered excellent service until Mr. Thibodeau's release in time to take up the work with the New Year. In October also Mr. Alley resigned to take charge of the Gregg work at the Bryant and Stratton School. It seemed a hopeless task to secure a successor. We were fortunate in securing Miss Etta L. Tufts who came to us from Shelburne Falls and is proving a very satisfactory member of our corps.

In the grades we lost Miss Clement and Miss Wilson of the

Washington School. Miss Iola M. Elliott and Miss Florence Carr were appointed to the first and second grades and are doing good work. Miss Miller was transferred to the Longfellow to take Miss Coleman's place. At the Longfellow we also lost Miss Sanborn whose place is taken by Miss Carrie Crockett from Bath, Maine, while Mrs. Sweetser's place is taken by Miss Lillian Parker of Hamilton, Mass., Mrs. Sweetser taking the place of Miss Wilda Briggs at the Lincoln. Miss Day resigned the first grade in the Lincoln and Miss Grace Welch of Newburyport has charge of that class.

THE SALARY QUESTION

Although our teachers received an increase of fifty dollars last year, the demands upon them by reason of the advance in cost of living, the necessity for providing against sickness, of dressing in manner fitting their profession, and of meeting many calls made upon them for the support of community and national movements, it would seem that the wage must be established at an even greater maximum. The movement is nation wide, and we have not risen as have other communities. Unless we are to become once more a training school for other communities, we should establish a maximum for grade teachers of \$900 and for the high school assistants of \$1,050. With this should be fixed a yearly increase and a reasonable requirement of evidence of professional growth through study in extension courses or summer school work at least every five years. Many opportunities are open to our teachers and no one can keep up with the educational movements of today without availing himself of such offerings. Many of our teachers are already eager to take advantage of the opportunities, and either such requirements, or the offering of a bonus for such work should be established to do justice to them, as well as to bring about the best results in our teaching.

WAR SAVINGS AND GIFTS

In response to the call from Washington, the War Savings Drive opened with a Public Speaking Contest held in the High School Hall, April 12th. The program follows:

1. Orchestra.
2. Grade XIII Elsie Butler, Robert Houghton, Earle Prescott.
3. Grade VII Ruth Massey, Florence Kelley.
4. Cornet Solo, Miss Kathleen Jackson.
5. Grade VIII William Blauvelt, Alice McManus, Martha Bellamacina.
6. Grade IX Gertrude Callahan, Lillian Chase.

7. Patriotic Songs.
8. Grade X Barbara Chase, Gertrude Hatch, Ralph Holman.
9. Violin Solo, James L. Gagan.
10. Grade XI Florence Kennedy, Jennie Kennedy, Redfield Wheeler.
11. Grade XII Laurence Craigie, Kathleen Jackson, Madeline Pettengill.
12. Orchestra.
13. Award of Honors.
14. Star Spangled Banner.

The parts, especially those by the Junior High Grades, were well rendered. The Judges awarded the honors to the following:

Grade XIII—Earle Prescott.

Grade XII—Kathleen Jackson.

Grade XI—Redfield Wheeler.

Grade X—Barbara Chase.

Grade IX—Gertrude Callahan.

Grade VIII—William Blauvelt.

Grade VII—Ruth Massey.

It would be an excellent move if some public spirited citizen would establish a fund to be used in awarding medals for prize speaking as is done in many communities.

All the schools have entered heartily into the drives for War Savings and the response has been fine. The following summary for the year shows how well our pupils have learned the lesson.

	Number enrolled	Number holding Thrift and War Stamps	Total Value of Stamps
High School	227	145	\$1,976.50
Dean	276	216	2,786.25
Longfellow	209	121	1,186.05
Whittier	72	52	663.25
Washington	107	79	598.00
Lincoln	136	77	605.25
	<hr/> 1027	<hr/> 690	<hr/> \$7,815.30

The Liberty Bond drives were well supported by our schools. These represent so largely the contributions of the parents and relatives as gifts to the children that it is difficult to estimate the essential value. In the upper grades it materially cut our War Stamp returns as did the War Work Drive, many stamps being converted in order to purchase bonds or pay pledges.

The spirit of giving as well as of saving has been emphasized in the "Y" and the United War Work Drives. In both of these a

good standard was reached. In the latter the report to date shows that the schools pledged and paid in the following:

54 Victory Boys—pledging to earn and give \$5.00.

37 Victory Girls—pledging to earn and give \$5.00.

185 pledged to earn and give less than \$5.00.

Paid January 6th, \$336.68.

The schools have also given to the fund for Belgian children.

WAR WORK

The World War has affected our schools as it has every other part of American society. New obligations have been placed upon us. In meeting these the teachers and pupils have manifested a highly satisfactory spirit. We have made every effort to carry on the necessary fundamental work and at the same time rise to the new requirements, utilizing the schools to help win the war, and the lessons of the war in training our pupils for citizenship.

JUNIOR RED CROSS REPORT

The Stoneham High School Auxiliary of the Junior Red Cross was established in March, 1918. Through the sale of tickets for a moving picture show, gifts from a friend of the school, and the Teachers' Club, and profits from a sale held in December, a membership fund for the years 1918 and 1919 was provided.

Since organizing, the Auxiliary has made and sent to Lowell headquarters the following: 2 dozen pinafores; 2 dozen chemises; 7 capes; 13 pairs socks; 2 scrap books.

Practically all of this work has been done outside of school hours.

The Dean School Auxiliary of the American Red Cross was organized in November 1917. Every pupil became a member.

A fund of \$86.00 was raised to cover the membership fee of 25 cents per pupil in the Auxiliary. One-half of this amount was given by a friend, the rest was paid by the pupils. Considerable material was donated by the pupils and teachers, which, with the material purchased from the school fund, was made into the following articles: 16 Afghans; 61 Comfort Pillows; 21 Checker Sets; 12 Domino Sets; 77 Cut Up Puzzles; 39 Face Cloths; 140 Rolls; 6 Packs Gun Wipes; 192 Pin Balls; 1,500 Shot Bags; 53 Packages of Eye Wipes; 11 Cot Quilts; 354 Mounted Post Cards and Pictures; 5 pairs Foot Bandage Covers; 6 Property Bags; 1 pr. Socks; 2 pairs Wristers; 3 dozen Aprons; 58 Refugee Garments, Shawls, Capes, Dresses, etc.; 100 Soldier's Comfort Kits.

The best work, however, of the Auxiliary has been the interest aroused in the American Red Cross through stories and pictures used in the class rooms by the teachers.

In June an exhibition of the finished articles was held at the Dean School. In December the pupils, under the direction of Miss Cross, held a sale of arts and crafts articles at the Red Cross headquarters.

The work of the lower grades, which netted about six dollars, was given to the local Red Cross. The profits of the Dean School table, together with a gift from the Teachers' Club, will provide for the membership fund for the coming year.

REPORT OF THE SUPERVISOR OF GARDENS

The school garden movement began in 1915 with about twenty-three gardens. The next year this number was doubled and has increased since then many times that number.

The Parents-Teachers' Association has been responsible for this great work in our community. In 1917, by vote of the Executive Board, it was thought advisable to appoint a supervisor. That year the number of gardens increased to one hundred fifty with an acreage of three and one-half acres yielding products valued at \$700.

The year 1918 opened with an early spring and the gardeners were ready for work. Meetings were held at every school and the gardeners were told how to prepare their land, plan their gardens and plant their seeds. Kinds of soil were discussed and which vegetables would grow in them.

Mr. Farley, State Supervisor of the Junior Extension Work, came to us in May, and we had enthusiastic meetings in the High School, the Grades and Parents-Teachers' Association.

The children ordered their seeds of the School Garden Association in Boston and these were very satisfactory in most cases. We must make allowance for careless planting and lack of moisture if seeds do not come up well.

The gardens were inspected the last of June and July and were found to be carefully weeded and cultivated, and only a very few were neglected.

Many home tables were supplied with vegetables and many cans were preserved for winter. A number added to their savings by selling their products.

We had one hundred forty gardens, very few older children having one as they were too busy working elsewhere.

The acreage was about one and one-half acres, yielding a total value of \$496.,—\$330 to the acre.

In September an exhibit was held which was better in quality than ever before. The products were carefully selected and pre-

pared. A good showing of canned vegetables was made by girls who had grown them in their gardens.

Many children wished to join a canning club but no one could be found to oversee the work. There was no community center where they could bring their vegetables and can them as they do in some other towns. This part of the work is being neglected and surely this is a practical way to cut the cost of living.

Garden work presents many possibilities and it is of very great educational value. A splendid opportunity is given us to help the children to become independent, patient, persevering and practical. They were a small company in Uncle Sam's Garden Army of a million and a half.

They had something definite to do all summer, something that helped to carry their countrys burden and best of all something that has helped to build character. May there be much more of this work done in the future.

Thanks are due to all who helped in this work—the teachers, the Superintendent, the President of the Parents-Teachers Association and Mrs. Storey.

FANNIE A. DAVIS, *Garden Supervisor.*

This work should receive greater financial support from the town and a supervisor be employed during the planting season to guard against failure at this point. I would strongly urge the appropriation of \$150 this year.

Again do I urge the starting of a course in Cooking for the upper grades and High School. Both in Billerica and Bedford this work has proven of great value and nothing in the curriculum has carried over into the home life with as great efficiency. Instruction in household economics should be given to every girl. Very few of our young women today receive any instruction in home making, and are placed at a great disadvantage when the time comes for establishing themselves in their rightful place. Stoneham remains one of the few towns of its size and importance without such a course.

REPORT OF THE SUPERVISOR OF SEWING

MR. ARTHUR B. WEBBER,
SUPERINTENDENT OF SCHOOLS.

DEAR SIR:—Instruction in sewing has been given this year to grades V to IX inclusive. Sewing was introduced in the 5th grade last year and proved such a success that it was decided to continue it this year.

Owing to the great demand for Red Cross work it was de-

cided to divide the time between the regular class sewing and Junior Red Cross Work. The pupils have responded nobly to the demand and have accomplished a large amount of work.

Aside from the practical results this has meant a broadening of character and widening of interests.

Each week one hundred ninety girls are in the sewing-room which is situated in the Dean School. Classes vary from fourteen to twenty-four pupils. The fifth and sixth grades receive one hour a week instruction in sewing and the seventh, eighth and ninth an hour and a half.

While no public exhibition has been held this past year, the work is always open for inspection and visitors are most cordially welcome.

Respectfully submitted,

BESSIE HALLACK ROSE.

EVENING SCHOOL

The attendance at the Evening School has with the exception of the Sewing Class been lower than usual. Those who have come are manifesting a spirit of determination to take every advantage of their opportunities. Overtime work and the influenza account for the attendance being so poor.

With the new term the attendance is better, and a number of those returning from camps and government work have started in to attend. The enrollment is given in the tables for the year.

In closing I wish to express my thanks to the committee, teachers and parents for their cooperation.

Respectfully submitted,

ARTHUR B. WEBBER.

Report of Board of Health

To the Citizens of Stoneham:

The Board of Health respectfully submit their report for the year 1918.

A conference of all who desired to raise swine as a War Measure was held in the Selectmen's Office, April 4, 1918. The board suspended the contract for collecting garbage for the year 1918, and forty persons were assigned territory for collecting garbage in town to feed their swine. In response to the board's request for information as to Stoneham's production of pork as a War-Measure, seventy-one persons holding permits to keep swine reported 36,217 pounds of pork raised in our town during the year 1918.

The board advertised for bids for the removal of ashes for a three year term. April 11, the bids were opened, and the contract was awarded to John Doherty at the following figures:

May 1, 1918 to April 30, 1919, at \$1,800.00.

May 1, 1919 to April 30, 1920 at \$1,900.00.

May 1, 1920 to April 30, 1921, at \$1,900.00.

The milk analyses by Mr. Herbert Bowman of Somerville, have served to keep up the high standard in the quality of milk sold in Stoneham, especially for feeding small children, a factor in the conservation of child life.

In common with the rest of greater Boston, we were visited at the outbreak of Spanish Influenza in September. The Chairman of the board directed all his energy night and day toward controlling the dread epidemic, and September 28 the board ordered all assemblages and places of amusement closed. Later, we were compelled in the interest of public health to order the churches closed October 1, until further notice. The epidemic having been gotten under control, October 20, the closing ban was lifted to the relief of a patient public.

Number of Influenza cases in town	479
Number of deaths from Influenza	17

It is only fitting that we should commend the spirit of community co-operation which made possible our control of the dread epidemic by the Red Cross workers, School and Library officials, Pas-

tors and Churches, Management of Theatres, Poolrooms, Bowling Alleys, Drug Stores and other places of business, fraternal and other organizations. The Boy Scouts, and especially the Girl Scouts and their officers responded to every call to overcome the epidemic. Also, Dr. Bliss and the New England Sanitarium for furnishing wards for patients, and nurses to visit the homes of the sick. Our own District nurse Mrs. Lillian Sullivan did excellent work, and had Mrs. Horne of Reading, helping her, until the latter was stricken with the disease. The secretary of the Board of Health left his work and devoted all his time in directing the control of the epidemic.

For further details see reports of our Agent George N. Green, Plumbing Inspector Andrew J. Burnett, and Milk Inspector Lawrence E. Doucett.

MILK INSPECTOR'S REPORT, YEAR 1918

To the Board of Health:

GENTLEMEN—I herewith submit my annual report as Milk Inspector, for the year ending Dec. 31, 1918.

The year just past, I found to be the most difficult and most lacking in results. The conditions of dairies, all of which I have visited personally from time to time have, to a certain extent fallen back in standard. The greater amount of time having been put into gardening and harvesting by the farmer, and the almost impossible task of hiring labor during the war, has resulted in the ultimate neglect of his cattle. With the return of normal conditions however, a better milk supply may be looked for this coming season.

Our analyses, at present handled by Mr. H. E. Bowman of Somerville, at a reduced figure, has been satisfactory in every respect.

Report of Tree Warden

To the Citizens of Stoneham:—

There was at the disposal of the Tree Warden for the year 1918 the sums of \$300 for new shade trees, \$200 for the care of shade trees and \$50 interest on the Stockwell fund.

NEW SHADE TREES

Last Spring 100 Norway Maples and 28 Schwedleri Maples were purchased from the North Wilmington Nurseries and planted in suitable locations. Stakes and wire-guards were procured for their protection, 50 loads of loam being used in this planting. The trees are all living and doing well.

It is hardly necessary to state that the planting of shade trees along our streets is an improvement worthy the support of all public spirited citizens and there can be no doubt of the benefits derived from having our streets cool and shady during the hot Summer months. Therefore the policy of planting 100 trees each year should be continued. The Tree Warden will ask for an appropriation of \$300 for this purpose.

CARE OF SHADE TREES

During the months of July and August the work of removing dead wood from public shade trees was carried on. Six dead trees were removed and several trees bolted to prevent splitting.

The young trees planted in recent years require considerable attention. The soil was loosened around them several times and fertilizer dug in to insure their growth. During the dry spell in mid-Summer it was found necessary to water all the trees planted this year.

A serious outbreak of the Elm Leaf Beetle occurred in many cities and towns north of Boston this Summer, but so long as the present plan of spraying with arsenate of lead is followed there is no likelihood of serious damage to public shade trees from this pest. With the elms on private property, however, the situation is different and all those having valuable elms should have them sprayed the coming season.

The Bay State Street Railway, at the solicitation of the Tree Warden, did a thorough job of guarding the trees from damage on all their lines in town.

\$200 will be needed for the care of shade trees the coming year.

Respectfully submitted,

GEORGE M. JEFTS,

Tree Warden.

RESULTS OF TESTS OF MANUFACTURERS SEALED MILK JARS

Number of milk jars tested	209
Number below standard	2

This department of sealers of weights and measures is doing a work for the town that has a far reaching influence on the retail market, yet very little is heard or read of this branch of service which touches so closely the welfare of every man, woman and child. Our aim should be to promote a sense of fairness between him who sells and them who buy.

Our experience has taught us that the average merchant is honest, and that he wants to have his business investigated because he knows that "honesty is the best policy," and that his

business will be conserved and that it will grow only through the application of a square deal to all.

The sealer wants cooperation in the cause of honest weights and measures. Do not accuse any merchant of giving short weight until you are absolutely sure.

It may be that your scales are wrong and would be doing a great injustice to the merchant.

Short weight and measure have no relation to the "Golden Rule."

The following shows the weight of pieces of ice of various sizes. For other sizes multiply length by width by height, and that product by .532, and divide the result by 16.
